

ATTENTION!

PROTECT THE ICELANDIC HORSE FROM INFECTIOUS DISEASES

Visitors are asked to adopt strict biosecurity measures

Importing the following equipment is strictly prohibited:

- Used riding equipment, such as saddles, bridles, nosebands, pads, rugs, whips, etc.
- Used riding gloves

Cleaning and disinfection:

- Used riding clothes and boots should be washed in a washing machine or dry cleaned prior to entering the country.
- Used riding clothes and boots that cannot be placed in a washing machine or dry cleaned should be washed and disinfected as follows:
 - Rinse thoroughly with detergent
 - Dry
 - Spray with 1% Virkon® (10g per liter of water)
 - Store for at least 5 days prior to bringing the clothes into contact with horses in Iceland

Icelandic horses are not vaccinated and are therefore susceptible to infectious agents from abroad!

Visitors are asked to adopt strict biosecurity measures

PROTECT ICELANDIC FRESH WATER FISH FROM INFECTIOUS DISEASES

Visitors are asked to adopt strict biosecurity measures

Infectious disease agents such as viruses and the parasite, Gyrodactylus salaris, have never been detected in fresh water fish in Iceland.

Importing the following equipment is strictly prohibited:

Used fishing equipment such as fishing rods, reels, hooks/lures/flies, waders and nets, unless it has been disinfected by approved methods.

Disinfection:

Disinfection must be carried out by a veterinarian from the country of embarkation and a certificate of disinfection presented when transporting the equipment to Iceland. If a certificate cannot be obtained, the fishing equipment must be handed to customs officers upon entering the country for immediate disinfection at owner's expense.

Disinfection instructions and a Veterinary Certificate form and can be accessed at www.mast.is

PROTECT ICELANDIC ANIMALS FROM INFECTIOUS DISEASES

Visitors are asked to adopt strict biosecurity measures

Importing the following foodstuffs is strictly prohibited:

- Raw meat, including salami and smoked ham
- Raw eggs
- Unpasteurized milk products

The following products are permitted:

Boiled or processed foodstuffs, provided the packaging clearly specifies heat treatment.

Each traveller can bring up to 3 kg of cooked meat to Iceland.

Thank you for your cooperation

Diseases can be transmitted to animals and man from food of animal origin. Please take utmost precautionary measures when importing food to Iceland!
